

## 'Big Ticket' Storage Infrastructure Manager

- ✚ **Leading Financial Institution**
- ✚ **Major Data Consolidation Program**
- ✚ **Significant Snr. Exec. Pkg. Neg. + Bonus + Benefits**

This is a rare opportunity to lead one of the largest data and infrastructure consolidation programs in the Southern hemisphere. Managing and controlling a project of this scale and operational importance is certain to propel your career to new levels of achievement and reward....

Working closely with the Group CIO and business unit teams, you will act as a single point of contact for projects & issues enjoying complete responsibility for managing availability, capacity and performance across this Australian icon's extensive Storage and Infrastructure services. You will set the agenda with authority yet diplomacy when working with vendors & key stakeholders to ensure that the enterprise's business units are adequately supported, whilst balancing the demands of a significant infrastructure budget - forecasting, monitoring and managing the resources required to deliver technology service and support to Best Practice levels are now second nature to you. You will also lead, develop and grow a first class team committed to an ethos of excellence in ensuring that the infrastructure services provided to the business will satisfy a tough audience of eclectic stakeholders, from Board level to shareholder.

A "must investigate" senior appointment for candidates with the following:

- ✚ More than a decade of proven success in a in a large scale technology environment addressing, amongst other areas, Enterprise-level storage and infrastructure services;
- ✚ 7+ years multi-platform infrastructure management experience;
- ✚ "Chameleon" qualities that allow you to build strong and functional working relationships at all levels and across all disciplines on the org. chart;
- ✚ Written, verbal, influencing and presentation skills of the highest order; &
- ✚ Relevant IT tertiary qualifications (ITIL foundations certificate desirable).
